

non-melanoma

# Skin Cancer

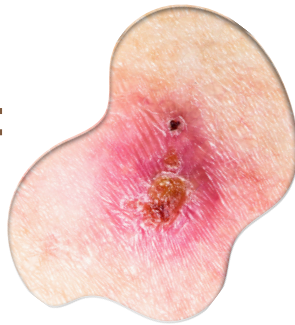

know what to look for

A lump that's smooth, pearly, or waxy.

On dark skin, it may be brown or glossy black with a rolled border.

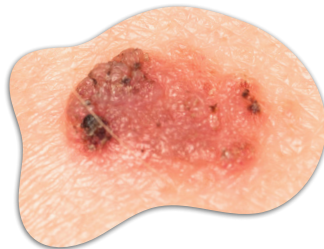

A flat red spot:  
scaly, crusty,  
or bleeding

Spot something?  
See your GP!

Rough, scaly, or  
irregular patches

A lump that's firm, scaly,  
crusted over, or sore.
