

## FACEBOOK

Creating a Facebook Fundraiser is super way to raise funds. Your friends, family and co-workers can donate easily and securely right through Facebook, and the money is deposited right into the Irish Cancer Society bank account.

Not sure how to setup your fundraising event on Facebook? Follow the six easy steps below.

1. Head over to the Irish Cancer Society Facebook Page
2. On the left side of the page select Fundraisers (you may have to click *See More*)
3. Select the Raise Money button (on the top right side of the screen)
4. Facebook will ask you to **set a fundraising target** and the date your fundraiser should end. These are both up to you!
5. **Add a description** to your fundraiser to tell your story about why you're organising a virtual event. It's good to tell your story - it shows your friends and family members that this means something to you and they'll be more likely to give you a donation. You can also add an image to your fundraiser to make it more personal.
